How to play

- Each player/pair is designated a handicap, e.g. +30, -15.
- To work out your net handicaps for each match use Table 1 (which will be on noticeboard in club house), e.g. -15, -30 becomes SCR, -15.
- All matches are one long set, first to 12, no tie-breaks. There is no requirement to win by 2 clear games, so 12-11 is a valid winning score.
- To work out the starting score for each game, use Table 2 (which will be on noticeboard in club house).
- Whoever wins the toss may elect to serve or receive, but you must stick to the starting score sequence in Table 2.
- All games should start from the right, but if both players/pairs agree then it can start from the left for ease of scoring (it should be remembered that there can be an advantage to one side if the games are not always started from one side).
- Any queries should be addressed to the tournament referee
